25 YEARS OF EXPERIENCE.

The Beatris Collection is a furniture range that gives interiors a special quality. The BEATRIS COLLECTION upholstered furniture factory was established in 1997. It is a traditional Polish company with over 25 years of experience in the industry. As a direct producer, we constantly develop our products and are constantly looking for new solutions, in order to provide our customers with high quality products at the best prices.

We base our relationships with customers and partners on honesty, building a long-lasting and durable collaboration. Committed to being known as a reliable contractor, we have created a friendly business environment, in which there are currently many furniture and accessories manufacturers from all over Europe. Sharing our passion, together with our clients, we wish to build a unique atmosphere for their homes and apartments – spaces that go together with the most important moments of our lives.

Highest quality

We value the beauty, style and durability of natural raw materials, that is why we try to always keep them part of our furniture. By using the highest quality materials possible, we meet the expectations of connoisseurs of good taste. For production we use only certified wood from the best plantations and the fabrics used meet the high ecological requirements.

A beautiful form is half of success. When it is combined with the attention to detail, precision and meticulous control over each process, we get a product that fully satisfies even the most demanding customers, and as a company with full responsibility we can provide a guarantee of trouble-free use for months.

Modern production facilities

The increase in interesting and complex shaped furniture means that we must constantly invest in the modernization and expansion of our production facilities. We have fully equipped facilities which enable us to manufacture furniture from scratch. We are therefore able to offer rapid delivery times and guarantee the quality of our products.

Own vehicle fleet

Beatris Collection is not only a valued furniture producer, we also operate in the field of logistics and distribution of our products. We have our own large, modern fleet of heavy goods vehicles, meaning that we are able to offer the fast and safe delivery of our products throughout Europe. A perfectly functioning logistics department constantly monitors the timeliness of deliveries, allowing us to guarantee the highest quality of services in this field.

Production supervision IT

As a modern, customer-oriented company, we use advanced IT systems in our daily work, which support us in optimizing production. This constant production process management allows us to carefully plan contract deadlines and keep our clients informed on its condition in every stage of production.
